| Notes: | | | | | AGL | | | | |

Notes:

A) Certified in accordance with the AHRI Forced-Circulation Air-Cooling and Air-Heating Coils Certification Program which is based on AHRI Standard 410 within the Range of Standard Rating Conditions listed in Table 1 of the Standard. Certified units may be found in the AHRI Directory at www.ahridirectory.org. G) Rated performance is below the capacity or temperature requested.

9.38

L) Coil rating valid for Heatcraft coils only.

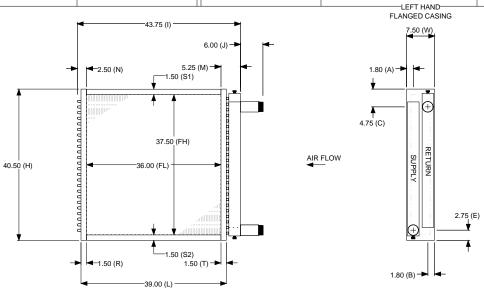

Fouling Factor ft^2-°F-hr/BTU:

NOTES:

GENERAL NOTES:

1. All dimensions are in (in)

2. Manually verifying dimensions is highly recommended.

3. The supply line should be connected to the lower connection on the leaving air side for counterflow operation.

- 4. Coils will vent and drain through factory-installed vent and drain fittings when mounted level for horizontal flow.
- 5. Connection location other than standard could affect vent and drain locations. Consult factory.
