TEMPERATURE SENSOR ASSEMBLY
SEE PAGE 4 FOR DETAILS

HCFCOVER INSTALLED TO PROTECT COIL
INSTALL WITH (4) 1/4-20 x 1/2" WHIZ BOLTS (800048) AND LARGE FLANGE NUTS (800034)
INSTALL BOLTS ON FRONT FACE, NUTS ON BACK

NOTES:
-TEFLON TAPE MUST BE USED ON ALL THREADED CONNECTIONS.
-WATER INLETS SHOULD POINT DIRECTLY TOWARD FRONT OF HOOD.
-WATER GAUGES MUST FACE THE CLOSEST END OF THE HOOD.
PLUG BALL VALVE FOR SHIPPING (USE PN 57935K15)

HCFCOVER INSTALLED TO PROTECT COIL
INSTALL WITH (4) 1/4-20 x 1/2" WHIZ BOLTS (800048)
AND LARGE FLANGE NUTS (800034)
INSTALL BOLTS ON FRONT FACE, NUTS ON BACK

NOTES:
- TEFLON TAPE MUST BE USED ON ALL THREADED CONNECTIONS.
- WATER INLETS/OUTLETS SHOULD POINT DIRECTLY TOWARD FRONT OF HOOD.
- WATER GAUGES ON INLETS/OUTLETS MUST FACE THE CLOSEST END OF THE HOOD.
- WATER GAUGES BETWEEN COILS SHOULD FACE THE FRONT OF THE HOOD.
NOTES:
- Teflon tape must be used on all threaded connections.
- Water inlets/outlets should point directly toward front of hood.
- Water gauges must face the closest end of the hood.

Sensors should be wired to prewire if on same hood. Reference schematics to determine factory wiring requirements.

HCFCover installed to protect coil. Install with (4) 1/4-20 x 1/2" Whiz bolts (800048) and large flange nuts (800034). Install bolts on front face, nuts on back.
HCFCOVER INSTALLED TO PROTECT COIL

INSTALL BOLTS ON FRONT FACE, NUTS ON BACK

CENTERLINE OF RISER

CENTERLINE OF COIL

1 7/16" FLAT OF QUICK SEAL AGAINST BACK OF PLENUM

3/4" QUICK SEAL 1 1/2" Ø HOLE

3/4" QUICK SEAL 1 1/2" Ø HOLE

5"

COIL INSIDE HOOD (TOP & BOTTOM VIEW)

(22 1/8"

NOTES:
-TEFLON TAPE MUST BE USED ON ALL THREADED CONNECTIONS.
-CENTERLINE OF COIL TO ALIGN WITH CENTERLINE OF RISER.
-WATER INLETS SHOULD POINT DIRECTLY TOWARD FRONT OF HOOD.
-WATER GAUGES MUST FACE THE CLOSEST END OF THE HOOD.
-COIL SHOULD BE ASSEMBLED INTO HOOD AFTER SPRAY BAR IS INSTALLED.
-PLUG COIL INLET AND OUTLET BALL VALVES FOR SHIPPING. (USE PN 57935K15)
-METAL FIN GUARD HCFCOVER MUST BE INSTALLED ON FILTER SIDE OF COIL TO PROTECT FINS.
-SUGGEST FULLY ASSEMBLING COIL FROM QUICK SEAL DOWN, PLACING IN HOOD PLENUM AND MARKING HOLES TO BE CUT INTO TOP OF HOOD. THIS WILL ENSURE QUICK SEALS ALIGN WITH HOLES.
-WATER MUST BE DRAINED FROM COIL AFTER WATER TESTING. REMOVE PLUGS TO DRAIN. REINSTALL PLUGS AFTER DRAINING.
